

Right Down Town      Opposite Post Office  
 SPRINGDALE, ARKANSAS

Visitors Welcome

1 February 1954

Minimum order shipped \$5.00. ADD \$1.00 TO EACH ORDER to help on postage and packing costs. We ship every order Special Delivery (Special Handling rural) to assure package being placed in coach with mail employees to look after it; insured mail is NOT. Special Delivery gives better service to plant shipments than insured mail does. We guarantee safe arrival.

FREE GIFTS: Select additional \$1.00 value for every \$10.00 or more order; \$2.00 value for every \$15.00 or more order; \$3.00 value with \$20.00 or more order; \$5.00 value with \$25.00 or more order; add \$1.00 value for each additional \$5.00 purchase. Stock on some too limited to allow gifts; such limited varieties marked "No G."

(WE APPRECIATE IT WHEN YOU INDICATE SECOND CHOICES)

ABBREVIATIONS: L.P.—larger plants. Y.P.—younger plants. S.P.—sturdy small plants. C.—cutting, which means just what a leaf produced, usually about 3 plantlets; many leaves however produce only 1 plantlet; we try to strike a satisfactory average for you. Usually cuttings are ready for you to divide and pot separately; very new varieties are sometimes too small to be divided; reset too-young cuttings in starting medium and grow them on for a while before dividing; don't divide until plantlets are an inch high and sturdy; many divide too young for good results. R.L.—rooted leaf, some of them rooted in charcoal water; set these out in starting medium, turn a glass over for a week, and they should produce plantlets for you soon. L.—leaf fresh cut from plant. No G.—insufficient stock to allow as gifts.

NEW VARIETIES are marked by asterisk (\*).

★ ★ ★

DUSKY PRINCESS. We are pleased to introduce McFarland's DUSKY PRINCESS. S.P. 50c; C. 60c; no larger plants now. Large dark bloom; foliage oak-girl-type that becomes very dark and waxy; an excellent variety.

GROUP 1. PINKS (separate by request). L.P. \$1.00; S.P. 50c; C. 60c; L. 35c. Most pinks are very slow growers, but Pink Wonder grows like a whiz!

\*ALL AGLOW—dp, pk.; grl. fol. Y.P. 75c; C. 60c; no L.P.; no G.

 WINE VELVET  
 YELLOW-BROWN GRL—white

POTTING SOIL—Remember violets in their natural state grow in leafmold. Keep your mix porous. Whether you make your own potting mix, or whether you buy it, don't keep it sacked away in a dark place. Darkness "kills" soil; ask any one who ever moved building or tore down a porch. Keep your soil in an open box, in a sunny spot.

(GROUP 3, listing newest varieties, will be found on reverse side. Too much to get on this page, so we just changed groups 3 and 4 about. TURN OVER for newest single-blossom varieties. Thank you.)

GROUP 3. NEWEST RELEASES, plus few other outstanding late ones. L.P. \$1.50; Y.P. \$1.00; S.P. 75c; C. 75c; L. 40c. As most of these are new, am not bothering to mark any of them with asterisk. We offer only Y.P., or S.P., or R.L. on many of these. Fr. means fringed blooms; NG means no gift.

- BLUE BROCADE—no L.P.; no C.; N.G.

 TWINKLES—didn't get the publicity but most outstanding of all! Lrg. blms.; good grower. Frosty moonlight gleaming on blue ice, a ta mode. Lush!!  
 WHITE CAPS—dk. bl.; fr. wh. edg.

★ ★ ★

EPISCAS (E-pish-i-ah). Called Hanging Basket Violets; Flame Violets; etc. Require very porous soil; just leafmold, sand, little rotted until your night temperatures are above 40 degrees!! Bloom only once a year, but you have gorgeous foliage year round. Plants 50c, with 5 exceptions. All scarlet blooms, except four. Newest ones are starred (\*): 16 varieties now.

- \*ACAJOU—silver green; dk. black border.  
 \*CHOCOLATE SOLDIER—\$1.00. Narrow midriff; wide dark brown border.  
 \*CHONTALENSIS—solid bright light green; small narrow leaves; blue.  
 \*COCCINEA (Fulgida)—bronz with light green veins. Most widely advertised.  
 \*CUPREATA—all over bronze.  
 \*EMERALD QUEEN—dark green effect; rough, pebbly, darker-green border.  
 \*HARLEQUIN (Dark Splendens)—\$1.00. A Splendens with dark border.
- \*FROSTY—light effect; lightly bordered with darker blocks; foliage has light texture.  
 \*KITTY (Sp. No. 2)—bronz with iridescent lilac midriff.  
 \*LILACINA—\$1.50. Blue. Dark brownish-green; pebbly finish.  
 \*MRS. FANNY HAAGE (No. 3)—Blue. Silver-green midriff and veins; dark pebbly border.  
 \*SILVER SHEEN—light all-over effect. Pebbly textured, but dainty.
- SPLENDENS—waxed lt. green; lighter veins; sturdy grower.  
 SYLVAN BEAUTY (No. 1)—\$1.00. Smooth; dark background, green center.  
 \*TESSELLATA—dark forest green. Does not send out runners; makes big upright plant; cannot stand one bit of heavy soil; use VERY porous. Yellow blooms.  
 VIRIDIFOLIA—waxen medium-light green foliage; best bloomer.

★ ★ ★

MISCELLANEOUS PLANTS 50c ea: BEGONIAS (Lettuce Leaf; Star; Watermelon; Double Rose in white, red, pink). Begonias require same soil as violets but are easily overwatered; water little at a time, and keep on dryish side. Water as often as violets and Begonias will DIE; so don't!  
 MARANTA (Prayer Plant or Rabbit Track Plant).  
 TRICHOSPORUM (Red Bugle Vine)—very porous soil; just leafmold mix.

★ ★ ★

WHOLESALE LIST—We issue none. We never offer wholesale prices on your choice of varieties. We are not that large a grower. We offer OUR selection only, of varieties in surplus at the moment, shipped by EXPRESS ONLY, you to pay Express charges, 2 1/2" 40c ea; 3" 50c ea; minimum 20 plants for \$8.00, but you can make the shipment as big as you please. If there are varieties you already have or know you don't want, such a list MUST BE IN ALPHABETICAL ORDER so that I can refer to it instantly every time I pull a plant. I cannot take the time to look at a list not in alphabetical order!

★ ★ ★

VIOLET SUPPLIES. With plant orders only at these prices. If ordered separately, add 25c for packing-postage.

- HYPONEX 10c & 25c sizes only DuPont FERMATE \$1.10 VIOLET LETTERETTES 50c (Add 10c for p.p. if ordered separate)  
 PLANT MARVEL 35c, 80c & \$1.35. We recommend this highly. Looks like orange jello; dissolves completely, instantly.  
 NNOR Spray 35c, \$1.10, \$2.30. 1 teaspoon to gal warmish water; mix thoroughly. Either spray or dip.  
 DIMITE \$1.10. For mites only; not for mealy bugs. Thoroughly mix 1 teaspoon in gal. warmish water—never more. Spray plant only; never dip plant in Dimite solution, as you can with NNOR.  
 LINDANE 5% (Isotox) \$1.10. Sure death to nematodes in sand, or anywhere it can actually come in contact with them. It will NOT kill nematodes inside plant tissues, or inside plant roots. Since the widespread nematode infestation of Winter 1951-52, if you keep your plants setting on a common sand or gravel bed, it is a wise precaution to saturate the bed at intervals with Lindane solution; then if one infected plant should slip by you, nematodes washed from it in watering cannot infect other plants setting on the same bed: the nematodes will be killed as soon as they reach the Lindane saturated sand.  
 ZINC METAL STAKES 1c each. Foliage has a tendency to curve about upright stakes, such as wood or plastic, spoiling the lovely symmetry of the plant. Use metal stakes and bend them down over the edge of the pot out of the way. To clean zinc metal stakes for re-use, soak in vinegar 30 min. to oxidize and "loosen" writing; scour; (which scouring will make a too-slick surface to write on, SO—) drop in vinegar again for 20 min. or so, which will oxidize the metal enough to make a nice writing surface. Now rinse in clear water to stop oxidation. Use an ordinary lead pencil; ever-wear pencil marking is too hard to remove. If any danger of fungus or nematode transfer, don't take a chance; boil for 5 minutes—but not in an aluminum pan; aluminum darkens zinc.  
 TIPS ON GROWING AFRICAN VIOLETS ..... 10c (5c with plant orders).  
 TIPS ON CONTROLLING MEALY BUGS AND MITES ..... 10c, whether with plant orders or separately.  
 TIPS ON CONTROLLING NEMATODES ..... 10c, whether with plant orders or separately.

★ ★ ★

We positively guarantee our plants to be 100% free of nematodes.
